

Schaub on Bryan Callen Trying to Get Him to Fight Derrick Lewis in Bareknuckle MMA

The Joe Rogan experience If Brian was here he would be betting We get him to bet on something stupid Yeah I'll take his money How much uh does he owe you We we lost count man I mean no like these days but you must be up like considerably right I'll take your dogs and but then recently he's trying to he's trying to get me to take a fight and then he even called my manager I was like hey hey Bud are you out of your fucking mind He was talking about on the podcast So he is serious He is serious about start off as a joke Uh When Jorge came on and he was like well we went off you I like you know it's not happening dude Then we're just joking around I was like I'll fight another comedian I'll fight Lucy K or Tim Dylan like joking around and he's like no he's like Derek Lew is a free agent And Brian's like oh Derek I'm like I'm not are you out of your fucking bare knuckle with Derek Leo Are you out of your fucking mind Then they threw out another name like I could beat that guy tonight in my shorts and then uh afterwards the money they were throwing around is insane Dude I wouldn't do it How's he getting so much money They have big time funders But the money is stupid I'll tell you I feel you're talking multiple seven figures I was like and is it I guess for for my ego I'm like damn it's cool You think I'm worth that Definitely not But uh you know it's great You got you know it's a compliment but Brian's out of his fucking mind I'm like do you have any idea I'd have to hold everything I'm doing get in the camp for four months just to get in that fight shape And it's not like I'm fighting UFC which I'm used to which 10 years ago bro you're talking bare knuckle M ma and they want to do in Denver where they allow head stops against Derek Lewis Head stops Are you out of your fucking wait a minute This is bare knuckle M ma I like that Do they allow soccer kicks Uh I don't know I think so man If you could head stomp a guy both of those come up both of those come up a lot of soccer kicks head stomps and if they go knees to the head on the ground that's a trifecta That's the the biggest game changer The biggest game changer Uh headbutts is one too because when head butts are legal The guard changes when head butts are legal this is your guard Go watch any old valet over hook here and you're like this protecting your head That's the stance They all you're like always you That's how you fight Mark Coleman was the master of that Remember then when they outlawed head butts shit change then you could open up a little bit But

when they outlawed elbows to the back of the head that changed everything because there was a time where I'm like why even get good at rear naked chokes as soon as they get the back you see like Henzo did it I remember John was as soon as you get the back you throw three elbows that everybody taps You don't even need to develop um any kind of skill to choke someone out those elbows at the back of the head Once they once they took that shit out changed a lot look changed a lot because that is such a vulnerable place You got a guy riding your back and he can he can you don't even see him when he's behind you I think that's how the Henzo Gracie uh Spikers He got his back and he just started dropping bows on the back of his head And I remember he stepped on his neck when he stepped off a apparently the guy was talking a lot of shit and the guy kept calling him in his hotel like all throughout all hours of the night So he wouldn't get any sleep He had like a phone in a drawer Some fans did I forget which fight it was but they pulled the fire alarm I'm like you're waking up my opponent too You dumb ass fucking ass He's in Toronto I think Wow But Brian's out of his mind regardless He's like I don't know why he would try to get you to do that unless he's getting a piece of it Is he trying to get a piece of it Agent piece Yeah Do you have a fucking secret conversation with He might have without me knowing Good job we'll give you \$20,000
